MARITIME FLEET MANAGEMENT SOFTWARE

NS MOBILE

ABS Nautical Systems® (NS) mobile applications revolutionize onboard vessel management by giving crew and staff a simple and familiar interface that is responsive to their needs and works on any device, so ship and shore collaboration is driven by quality data.

POWERFUL | SIMPLE | RELIABLE

MANAGE YOUR FLEET FROM ANYWHERE USING ABS NAUTICAL SYSTEMS® MOBILE APPLICATIONS

Many marine software solutions are expensive or difficult to implement. Nautical Systems (NS) mobile applications are turnkey digital solutions that are easy to deploy and use. All NS mobile apps feature intuitive user interfaces that minimize the need for training and ensure an optimal onboard experience.

BUILT WITH THE MARINER IN MIND

- Scales easily as the organization grows
- Simplifies and improves accuracy of onboard data entry
- Works in offline mode with automatic sync to the onboard server
- Speeds crew sign-on and sign-off
- Designed to the familiar style of smartphone apps and tablets

MOBILE APPLICATIONS

NS SUPERINTENDENT — Enables efficient workflow by giving superintendent and managers control over work and approvals from their mobile devices so that critical work doesn't have to wait for someone to return to the office.

NS WORKBOAT — Enables operational compliance from day one with checklist-based functionality and one-stop audit for onboard operations and onshore decision making.

NS VESSEL — Enables crew mobility while on-board blue-water vessels, ensuring efficiency as daily tasks, inspections and checklists are performed.

NS INSPECTION — Provides customizable inspection checklists to support audit preparation while performing walk around tasks, giving users assurance they are ready before class boards their vessel.

NS Docs — Provides onboard and office mobile users quick and easy access to company-controlled documents when away from their computer.

NS SUPERINTENDENT APP CAPABILITIES

- Approve purchase orders, request for quotes, work order deferrals and job safety (risk) analysis
- Locate vessels easily with built-in locator
- Minimal upfront investment required
- Conduct checklist-based inspections
- Search and update inventory with bar coding
- Access NS Messaging

NS WORKBOAT APP CAPABILITIES

- Facilitate United States Coast Guard (USCG) Subchapter M compliance
- Support work order completions, audit inspections, checklist-based inspections, on-board meetings and drills and document delivery
- Identify critical equipment history for inspections and audits
- Report on hazardous conditions, inspections and equipment failures
- Update key operational information such as equipment running hours and spares inventory

NS VESSEL APP CAPABILITIES

- View maintenance and compliance tasks easily: planned and unplanned work orders, audits, inspections, meetings, drills, running hours entry task, inventory count task
- Report incidents and machinery failure
- Capture visitor log information
- Assess critical equipment list with job history
- Update key operational information such as equipment running hours and spares inventory

NS INSPECTION APP CAPABILITIES

- Support audit inspections, checklist-based inspections, on-board meetings and drill, document delivery and compliance tasks
- Identify critical equipment history for inspections and audits
- Report findings easily
- Capture visitor log information

NS DOCS APP CAPABILITIES

- Integrate with NS Document Manager for NS Enterprise
- Download physical documents with one-click
- Use "Quick Links" for simplified navigation
- Simplify user actions for adding document feedback, change request and document acknowledgment
